

# Westhills Annual Tree Trimming Weeks

## January 15th to February 16th

The Westhills Homeowners Association annual “Tree Trimming Weeks” are here. This is the time of year to trim your trees and shrubs. Trimming is important for fire prevention and keeps the plants healthy. It is good for the appearance of your property and will increase your property value. In addition, trimming excess limbs and foliage from your trees can bring you in compliance with the CC&R’s by preventing blockages of neighbor’s views. So this is an opportunity to enhance your own property while helping your neighbors. One suggested professional tree trimmer is Ignacio Najera at 818-399-5910. He has done several properties in Westhills with very positive comments from the owners or you can use your own trimmer.
